INTRODUCTION

This report presents information from the 1971 Census of Canada, for the population 15 years and over, showing 1970 income groups by sex, marital status, age, major source of income and period of immigration. Data are shown for Canada, regions, provinces, census metropolitan areas, and for census agglomerations of 25,000 population and over.

Average and median income figures in this report are calculated only for persons reporting income. Medians are calculated from group data shown in this report.

Comparability with 1961 data: Coverage in the 1961 Census was from a 20% sample of non-farm private dwellings only, and was exclusive of the Northwest Territories. In 1971 coverage was extended to include farm and collective dwellings and the Northwest Territories. The data from the two censuses are therefore not directly comparable.

The information in this report was collected on a 33 1/3% sample basis. As a result, the population for a given geographic area may differ from that shown in reports containing data collected on a 100% basis. The latter figures, of course, represent the official population counts (see Catalogue No. 92-715).

The 1971 Census figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Also, minor differences can be expected for corresponding totals and cell values in various census reports.

Note: Aggregate income calculated from these data should be used with caution as averages were calculated prior to rounding.

DEFINITIONS

Income: Persons 15 years and over, were asked to report total income received during the calendar year 1970 from each of the sources explained below:

- (a) **Wages and salaries** (amount before deductions for income tax, pensions, unemployment insurance, etc.): Includes military pay and allowances, tips, commissions and bonuses and piece-rate payments received during 1970, but excludes free room and board or other payments in kind.
- (b) **Net income from self-employment (non-farm)** (gross receipts minus expenses of operations): Amounts received from own non-farm unincorporated businesses or from a professional practice during 1970. In the case of partnerships, only the respondent's share was to be included.
- (c) **Net income from farm operation** (gross receipts minus expenses of operations including depreciation): Amounts received from the operation of a farm, either for own account or in partnership, during 1970. Advance, supplementary or assistance payments to farmers (including Lower Inventory for Tomorrow programme payments) by federal or provincial governments were to be included.
- (d) **1. Family and youth allowances:** The amount received from this source is included in the family head's income although reported by the wife. Provincial as well as federal allowances are included.
- 2. Government old age pensions, Canada pensions and Quebec pensions:** Includes Guaranteed Income Supplement.
- 3. Other government payments:** Includes all other government transfer payments from all levels of government such as unemployment insurance, veterans' pensions and allowances, welfare, workmen's compensation, mothers' allowances, etc.
- 4. Retirement pensions from previous employment:** Includes all regular income received as a result of previous employment of the respondent or a deceased relative. Includes pensions to retired civil servants, RCMP or career military personnel, and all annuities regardless of who purchased them but excludes lump-sum payments.

Ce bulletin présente des renseignements du recensement du Canada de 1971 en ce qui concerne la population de 15 ans et plus, par tranche de revenu en 1970 selon le sexe, l'état matrimonial, l'âge, la principale source de revenu et la période d'immigration. Les données sont indiquées pour le Canada, les régions, les provinces, les régions métropolitaines de recensement et les agglomérations de recensement de 25,000 habitants et plus.

Dans ce bulletin, le revenu moyen et le revenu médian ne sont indiqués que pour les personnes ayant un revenu. Les médianes sont calculées d'après les données de groupe présentées ici.

Comparabilité avec les données de 1961: Au recensement de 1961, les données étaient fondées sur un échantillon de 20 % des logements privés non agricoles seulement et excluaient les Territoires du Nord-Ouest. En 1971, le champ d'observation a été étendu aux logements agricoles et aux logements collectifs, ainsi qu'aux Territoires du Nord-Ouest. Les données des deux recensements ne sont donc pas directement comparables.

Les renseignements de la présente publication ont été recueillis sur un échantillon de 33 1/3 %. Il s'ensuit que les chiffres de population pour une région géographique donnée ne sont pas forcément les mêmes que ceux des publications dont les données sont intégrales. Bien entendu, ce sont ces dernières données qui représentent les chiffres officiels de population (voir la publication n° 92-715 au catalogue).

Par souci de confidentialité, les chiffres du recensement de 1971 publiés ici ont été soumis à une formule qui interdit la possibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres des unités (y compris tous les totaux) des tableaux sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par recoupements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De plus, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences.

Nota: Les chiffres du revenu total fondés sur ces données doivent être utilisés avec circonspection, car les moyennes ont été calculées avant l'arrondissement.

DÉFINITIONS

Revenu: Les personnes de 15 ans et plus devaient indiquer le revenu total reçu pendant l'année civile 1970 de chacune des sources suivantes:

- a) **Rémunération:** Rémunération totale avant déduction de l'impôt sur le revenu, des cotisations à un régime de pensions, des cotisations d'assurance-chômage, etc., y compris les soldes et indemnités militaires, les pourboires, les commissions et les gratifications ainsi que les paiements à la pièce reçus en 1970, mais sans la pension gratuite ou les autres paiements en nature.
- b) **Revenu net d'un emploi autonome (non agricole):** Recettes brutes, moins les dépenses d'exploitation, provenant de l'exploitation en 1970 d'une entreprise non agricole non constituée en corporation ou de l'exercice d'une profession pour compte propre. Dans le cas d'une société en nom collectif, seule la part du recensé est prise en compte.
- c) **Revenu net provenant d'une exploitation agricole:** Recettes brutes, moins les dépenses d'exploitation, y compris l'amortissement, provenant de l'exploitation en 1970 d'une ferme pour compte propre ou en association. Les paiements anticipés, les paiements supplémentaires et les paiements d'assistance (y compris les paiements en vertu du programme de réduction des stocks de céréales) versés aux cultivateurs par le gouvernement fédéral ou les provinces sont pris en compte.
- d) **1. Allocations familiales et allocations aux jeunes:** Le montant provenant de cette source est compris dans le revenu du chef de famille, même si c'est l'épouse qui le reçoit. Les allocations provinciales aussi bien que fédérales sont comptées.
- 2. Pensions de vieillesse de l'État et pensions du Régime de pensions du Canada et du Régime de rentes du Québec:** Est compris le supplément de revenu garanti.
- 3. Paiements provenant d'autres sources publiques:** Tous les autres transferts de tous les niveaux de gouvernement, comme les prestations d'assurance-chômage, les pensions et allocations d'anciens combattants, les prestations de bien-être, les indemnités pour accidents du travail, les allocations aux mères nécessiteuses, etc.
- 4. Pensions de retraite relatives à un emploi antérieur:** Tout revenu régulier relativement à un emploi antérieur du recensé ou d'un parent décédé, y compris les pensions des fonctionnaires, des membres de la G.R.C. et des militaires de carrière à la retraite ainsi que toutes les rentes, quel qu'en soit l'acheteur, mais sans les paiements forfaitaires.

(1) Y COMPRIS LES PERTES.

LOWE-MARTIN No. 1137

DEFINITIONS — Concluded

5. **Bond and deposit interest and dividends:** Includes interest from deposits in banks, trust companies, co-operatives, Credit Unions, etc., as well as bond and debenture interest and all dividends.
6. **Other investment income:** Includes net rents from real estate, mortgage and loan interest, regular income from an estate or trust fund, and interest from insurance policies.
7. **Other income:** Includes regular income from alimony, child support, non-investment income from abroad, scholarships, etc.

Major source of income: Refers to that component which constitutes the largest component of the total. In making comparisons absolute values were used. The components compared are:

Employment income: Includes all income from wages, salaries, tips and commissions, plus net income from business or professional practice, plus net farm income. Employment income is shown as the major source if the sum of these formed the largest or an equal share of total income (as compared to transfer payments and other income).

Transfer payments: Includes all receipts from family and youth allowances, government old age pensions, and other government income. Transfer payments are shown as the major source if the sum of these constitutes the major proportion of total income (as compared to employment income and other income), or if transfer payments and other income are equal in size and greater than employment income.

Other income: Includes all receipts from bond and deposit interest and dividends, retirement pensions from previous employment, other investment income and other income. Other income is shown as the major source if the sum of these constitutes the major proportion of total income (as compared to employment income and transfer payments).

Major source of income data from 1971 are not comparable with 1961 data as the latter were derived from the comparison of income from wages and salaries, net income from business or professional practice, transfer payments (the total of family allowances, old age pensions and other government income), investment income (the total of interest and dividends and other investment income), and other income (the total of retirement pensions and other income).

Age: Classifications are based on the number of completed years of age at last birthday prior to June 1, 1971.

Marital status (i.e., single, married, widowed and divorced): Totals shown under the heading "Married" include all married persons whether living together or living apart for any reason unless a divorce has been obtained.

Period of immigration: Refers to the year (or period) when a person born outside Canada first came to live in Canada.

Census Metropolitan Area (CMA): The main labour market of a continuous built-up area having 100,000 population or more.

Census Agglomeration (CA): A statistical area having an urban centre with a population over 1,000 and adjacent built-up area of at least 1,000 population and a minimum density of 1,000 persons per square mile. In this report only those census agglomerations of 25,000 and over are shown.

The estimates of the mean square error for the characteristics covered in this report were not available at the time of publication. They will be available in the introductory report to this volume (Catalogue No. 94-759). Those users requiring this information prior to the release of the introductory report should contact the Census User Inquiry Service.

DÉFINITIONS — fin

5. **Intérêts d'obligations et de dépôts et dividendes:** Intérêts de dépôts dans des banques, des sociétés de fiducie, des coopératives et des caisses d'épargne et de crédit, etc., intérêts d'obligations et dividendes.
6. **Autre revenu de placements:** Loyers nets provenant de la location de biens immobiliers, intérêts de prêts hypothécaires et autres, revenu régulier provenant d'une succession ou d'un fonds de fiducie et intérêts de polices d'assurance.
7. **Autre revenu:** Revenu régulier provenant d'une pension alimentaire ou du soutien d'un enfant, revenu net provenant de l'étranger (sauf de placements), bourses d'études, etc.

Principale source de revenu: Élément qui constitue la plus grande part du total. On a employé des valeurs absolues lors des comparaisons. Les éléments comparés sont:

Revenu de l'emploi: Tout revenu sous forme de rémunération, de pourboires et de commissions, plus le revenu net provenant de l'exploitation d'une entreprise ou de l'exercice d'une profession pour compte propre, plus le revenu agricole net. Le revenu de l'emploi est la principale source de revenu, si la somme de ces éléments représente la plus grande part ou une part égale du revenu total (par comparaison avec les transferts et les autres revenus).

Transferts: Toutes les recettes au titre des allocations familiales, des allocations aux jeunes et des pensions de vieillesse de l'État et tout autre revenu provenant de sources publiques. Les transferts sont la principale source de revenu, si la somme de ces éléments constitue la plus grande part du revenu total (par comparaison avec le revenu de l'emploi et les autres revenus), ou si les transferts et les autres revenus ont une importance égale et supérieure au revenu de l'emploi.

Autres revenus: Toutes les recettes provenant d'intérêts d'obligations et de dépôts et dividendes, les pensions de retraite relatives à un emploi antérieur, les autres revenus de placements et les autres revenus. Les autres revenus sont la principale source de revenu, si la somme de ces éléments constitue la plus grande part du revenu total (par comparaison avec le revenu de l'emploi et les transferts).

Les données sur la principale source de revenu de 1971 ne sont pas comparables avec les données de 1961, qui étaient tirées de la comparaison du revenu provenant de la rémunération, du revenu de l'exploitation d'une entreprise ou de l'exercice d'une profession pour compte propre, des transferts (total des allocations familiales, des pensions de vieillesse et des autres revenus provenant de sources publiques), du revenu de placements (total des intérêts, des dividendes et des autres revenus de placements) et des autres revenus (total des pensions de retraite et des autres revenus).

Âge: Nombre d'années révolues au dernier anniversaire avant le 1^{er} juin 1971.

État matrimonial (c.-à-d. célibataire, marié, veuf et divorcé): Le total "Mariés" comprend toutes les personnes dont le conjoint est vivant, qu'elles vivent ensemble ou qu'elles soient séparées pour quelque raison que ce soit, à moins d'avoir obtenu un divorce.

Période d'immigration: Année (ou période) où une personne née à l'extérieur du Canada est arrivée au Canada pour la première fois avec l'intention d'y demeurer.

Région métropolitaine de recensement (R.M.R.): Principal marché du travail d'une zone bâtie en continu comptant 100,000 habitants et plus.

Agglomération de recensement (A.R.): Unité statistique ayant un centre urbain de 1,000 habitants et plus, adjacent à une zone bâtie d'au moins 1,000 habitants et d'une densité minimum de 1,000 habitants au mille carré. Dans ce bulletin, les données ne sont publiées que pour les agglomérations de recensement de 25,000 habitants et plus.

Les estimations de l'erreur quadratique moyenne des caractéristiques données dans ce bulletin n'étaient pas connues au moment de la publication. Elles seront disponibles dans l'introduction de ce volume (n° 94-759 au catalogue). Les utilisateurs désireux de connaître ce renseignement avant la publication du bulletin d'introduction devront s'adresser au Service-utilisateurs du recensement.

A hard-covered binder, suitably titled, is included in the composite price to purchasers of the complete set of reports for any given volume part.

Catalogue of reports

A catalogue is available which describes the individual reports in the Volume Series of 1971 Census publications as well as reports in other series (i.e., Advance Series, Census Tract Series, and Special Series). The catalogue also includes a price list and an order form. A copy of this catalogue may be obtained from Publications Distribution, Statistics Canada, Ottawa K1A 0T6. For further information on census publications, address your inquiry to Information Division, Statistics Canada.

Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Field, Statistics Canada, Ottawa K1A 0T7.

Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. Requests should be sent to the Census User Inquiry Service specifying clearly the precise classifications or cross-classifications and the geographic areas. The exact categories for each characteristic and a rough table layout should be included.

Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Field of Statistics Canada.
